

To those on the board of the FCC I feel it would do our city of Danville, Va a great disservice to have K-Love radio station taken off the air. They offer free advertising for free local events and they play wholesome christian music. The effects of losing K-Love would be the lose of the serving of the lord and encouragement this radio station gives to fellow christians in my community. Their entire staff offers prayer and encouragement to millions of dedicated listeners all across this great nation. Finally, I respectfully ask that you allow K-Love to continue to broadcast in this community. Thank you Michael and Jennifer Pittmon.
